

# PayForMe — Company & Business Verification Requirements

**Version:** 1.0

**Purpose:** Standard Know-Your-Business (KYB) pack for payment, SMS, banking, and cloud provider onboarding

**Audience:** PayForMe operations, compliance, and external partners (MTN MoMo, Arkesel, banks, cloud vendors)

## 1. Overview

Before activating **SMS, MoMo, Partner Bank API**, or **production cloud storage**, PayForMe must submit verified company documents proving the business legally exists and is authorized to operate.

This document lists required company details and supporting documents. Keep originals secure; share **certified copies** or **PDF scans** only through approved channels.

## 2. Company details (required fields)

Complete this section in every partner application form.

| Field                               | Description                       | Example / format                                                     |
|-------------------------------------|-----------------------------------|----------------------------------------------------------------------|
| Legal entity name                   | Full registered name              | PayForMe Ghana Ltd                                                   |
| Trading / brand name                | Name shown to customers           | PayForMe                                                             |
| Entity type                         | Company structure                 | Private Limited Company                                              |
| Country of incorporation            | Jurisdiction                      | Ghana                                                                |
| Date of incorporation               | From Certificate of Incorporation | YYYY-MM-DD                                                           |
| Certificate of Incorporation number | RGD / Registrar number            | CA-12345678                                                          |
| Business Registration number        | Ghana RGD unique ID               | BN1234567890123                                                      |
| Tax Identification Number (TIN)     | GRA-issued TIN                    | C0012345678                                                          |
| VAT registration number             | If VAT-registered                 | VRA123456789                                                         |
| SSNIT employer number               | If applicable                     | —                                                                    |
| Industry / sector                   | NACE or free text                 | Financial technology / PropTech                                      |
| Registered office address           | Full postal address               | Plot 12, Accra, Ghana                                                |
| Operational / trading address       | If different from registered      | —                                                                    |
| Company email (official)            | Domain-matched preferred          | <a href="mailto:compliance@payforme.com">compliance@payforme.com</a> |

|                                          |                              |                                                         |
|------------------------------------------|------------------------------|---------------------------------------------------------|
| <b>Company phone</b>                     | Main line                    | +233 XX XXX XXXX                                        |
| <b>Website</b>                           | Live URL                     | <a href="https://payforme.com">https://payforme.com</a> |
| <b>Primary contact name</b>              | Authorized signatory         | —                                                       |
| <b>Primary contact title</b>             | e.g. CEO, Compliance Officer | —                                                       |
| <b>Primary contact email &amp; phone</b> | For provider follow-up       | —                                                       |

### 3. Mandatory documents

#### 3.1 Proof of legal existence

| # | Document                                       | Notes                                                                        |
|---|------------------------------------------------|------------------------------------------------------------------------------|
| 1 | <b>Certificate of Incorporation</b>            | Issued by Registrar General's Department (Ghana) or equivalent               |
| 2 | <b>Companies Regulations / Constitution</b>    | Memorandum & Articles of Association                                         |
| 3 | <b>Certificate of Commencement of Business</b> | If required for your entity type                                             |
| 4 | <b>Business operating license</b>              | Sector-specific license if regulated (e.g. rental, lending support services) |
| 5 | <b>Proof of business address</b>               | Utility bill, lease agreement, or bank statement (≤ 3 months old)            |

#### 3.2 Tax & regulatory identification

| # | Document                                       | Notes                                                           |
|---|------------------------------------------------|-----------------------------------------------------------------|
| 6 | <b>TIN certificate</b>                         | Ghana Revenue Authority                                         |
| 7 | <b>VAT registration certificate</b>            | If applicable                                                   |
| 8 | <b>Tax clearance certificate</b>               | Recent, if requested by partner                                 |
| 9 | <b>Data Protection Commission registration</b> | Ghana DPA Act compliance (if processing personal data at scale) |

#### 3.3 Ownership & control

| #  | Document                                | Notes                                      |
|----|-----------------------------------------|--------------------------------------------|
| 10 | <b>Register of directors</b>            | Current list from RGD or internal register |
| 11 | <b>Beneficial ownership declaration</b> | UBOs with ≥ 25% ownership                  |
| 12 | <b>Valid Ghana Card / passport</b>      | For each director and UBO                  |

|    |                         |                                                       |
|----|-------------------------|-------------------------------------------------------|
| 13 | <b>Board resolution</b> | Authorizing integration signatory to bind the company |
|----|-------------------------|-------------------------------------------------------|

### 3.4 Financial & banking

| #  | Document                                            | Notes                                              |
|----|-----------------------------------------------------|----------------------------------------------------|
| 14 | <b>Corporate bank account details</b>               | Bank name, branch, account name, account number    |
| 15 | <b>Bank reference / account confirmation letter</b> | On bank letterhead                                 |
| 16 | <b>Audited financial statements</b>                 | Latest year, if requested by MoMo or bank partners |

### 3.5 Compliance & policies (recommended for fintech / payments)

| #  | Document                                           | Notes                           |
|----|----------------------------------------------------|---------------------------------|
| 17 | <b>AML / CFT policy</b>                            | Anti-money laundering programme |
| 18 | <b>KYC / customer due diligence policy</b>         | How users are verified          |
| 19 | <b>Privacy policy &amp; data processing notice</b> | Published on website            |
| 20 | <b>Complaints &amp; dispute handling procedure</b> | Customer redress                |
| 21 | <b>Information security policy</b>                 | For cloud and API partners      |

## 4. Provider-specific extras

| Provider                   | Additional requirements                                                                   |
|----------------------------|-------------------------------------------------------------------------------------------|
| <b>MTN MoMo</b>            | Merchant agreement, callback URL (HTTPS), business category, estimated transaction volume |
| <b>Arkesel SMS</b>         | Approved <b>Sender ID</b> (max 11 chars), use case description, sample message templates  |
| <b>Partner banks</b>       | GhIPSS participation or sponsor bank letter, API security review, settlement account      |
| <b>Cloudflare R2 / AWS</b> | Billing identity, acceptable use compliance, DPA if enterprise                            |

## 5. Submission checklist

- ☐ All company detail fields completed (Section 2)
- ☐ Certificate of Incorporation uploaded
- ☐ TIN / business registration numbers verified against documents
- ☐ Directors and UBO IDs collected

- ☐ Corporate bank account confirmation obtained
  - ☐ Authorized signatory board resolution attached
  - ☐ Privacy policy and terms live on production website
  - ☐ Compliance officer assigned internally
  - ☐ Documents stored in secure compliance folder (not in git)
- 

## 6. Internal storage

Store KYB documents in:

- **Private cloud storage** ( `private/compliance/kyb/` ) — see [Cloud storage guide](#)
- Access via admin/compliance roles only
- Audit every download ( `FILE_ACCESS` logs)

Never commit certificates, TIN scans, or API secrets to the repository.

---
